Dear readers,

You are currently leafing through the articles published in the last issue of the 51st volume. We have published nine articles altogether that have been internationally reviewed twice, and therefore got the opportunity to be published.

Apart from six scientific papers, two case reports, and one review paper, we are also bringing you the abstracts from three congresses that were held in Opatija, Osijek, and Zagreb during the last several months.

I wish to inform you that *Acta Stomatologica Croatica* has had more than half a million views and readers during the last eleven years since it has been presented online [www.ascro.hr](http://www.ascro.hr). This tells us that the results that we are publishing are interesting to our colleagues from across the world, and the exact amount of citations will be presented in the next 52nd volume. In any case the editorial is trying its best to choose interesting and eagerly read articles.

In the spirit of the upcoming holidays we wish you a Merry Christmas and a Happy New Year of 2018!
